I have 3 of those at present, one being a Lafayette 150-in-1 in a wood carry case w/ hinged cover and the other two kits are Archer/Science Fair labs. The Lafayette was constructed much better and durable over the Science Fair units. I still have it to this day. As a youth I played with that Lafayette lab virtually every day.

200 in 1 Electronic Projects Lab Kit - RobotShop

I'm not sure if anyone is still following this thread, but I just found my original 150 in one kit today in the attic and was thrilled. I did every project in this kit and am glad i kept it. Surprisingly, I kept it all in tact, including the original earphone unit and the original wires and manual!
