Ghost Simulator: All ring locations (Update 17)

A ghost ring sight uses a very thin ring at the rear sight that almost disappears when the shooter looks through the ring up close, which is why it has been dubbed the "ghost ring" sight. This sight allows the shooter to simply look through the ring at the target while keeping the front sight post in the center of the ring to acquire a good sight picture.

How to jump through the ring in Ghost Sim

Aperture sights, also known as "peep sights", range from the "ghost ring" sight, whose thin ring blurs to near invisibility (hence "ghost"), to target aperture sights that use large disks or other occluders with pinhole-sized apertures. In general, the thicker the ring, the more precise the sight, and the thinner the ring, the faster the sight.

Iron sights - Wikipedia

One type of open rifle sight is called a ghost ring sight, which is a two-part sight that hunters often use. The sight includes a circle-shaped aperture called a ghost ring that is affixed to the top of the gun near the stock. The other part of the sight is a post that is located near the part of the rifle from where the bullet is fired.
