...

A speed square (aka “rafter square” or “triangle square”) is a measuring multitool. Made of steel, aluminum, or plastic, this common carpenter’s tool combines a ruler, a Try square, a protractor, a line scribing tool, a common-width board ripping guide, and a saw guide for making accurate 90° and 45° cuts with a hand or circular saw.

How to Use a Speed Square — Skill Builder | Make:

The speed square only has one right angle, but one of it's main purposes is to quickly define a square line across a board, a line 90 degrees (a right angle) to the edge of a board. For more on the history of the Swanson speed square you may watch this video.
