Influence: Science and Practice is a psychology book examining the key ways people can be influenced by "Compliance Professionals". The book's author is Robert B. Cialdini, Professor of Psychology at Arizona State University. The key premise of the book is that in a complex world where people are overloaded with more information than they can deal with, people fall back on a decision making approach based on generalizations. These generalizations develop because they allow people to usually act

The Science and Practice of Resilience. Mental resources like determination, self-worth, and kindness are what make us resilient: able to cope with adversity and push through challenges in the pursuit of opportunities. While resilience helps us recover from loss and trauma, it offers much more than that.
